🔧 Professional Summary

Completed all academic requirements for a BSc (Hons) in Computing and Information Systems at Sabaragamuwa University of Sri Lanka, with seven months of software engineering internship experience contributing to full-stack web and mobile projects. Experienced in delivering practical solutions to real-world requirements within collaborative development environments. Seeking an Associate or Junior Software Engineer position to begin a professional software engineering career.

🎓 Education

BSc. (Hons) in Computing and Information Systems

2022 – Present

Sabaragamuwa University of Sri Lanka

G.C.E Advanced Level in Physical Stream

2020

Pinnawala Central Collage – Pinnawala

📁 Professional Experience

Software Engineer Intern | OnCode Tech Solutions (Pvt) Ltd

Mar 2025 - Sep 2025

Completed a 25-week software engineering internship, contributing to 8+ web and mobile projects using React.js, Next.js, Laravel, NestJS, Flutter and Firebase. Developed multi-role features including authentication, admin dashboards, product, quotation, order, payment and tracking workflows, while performing API integration, testing, debugging and deployment.

📁 Projects

iMarket Mobile App – B2B Import/Export Marketplace [\(Github\)](#)

Contributed to a marketplace application supporting 3 user roles—buyer, seller and administrator—and 7+ core workflows, including quotations, sample requests, orders, payment verification, seller payouts, delivery tracking and customer support. Integrated 2 payment methods, bank transfer and PayPal, secure payment-proof uploads and automated notifications using Firebase Cloud Functions.

Used Technologies: Flutter, Dart, Firebase, Firestore, Firebase Storage, Cloud Functions, Github

KidsCare (Mini Project) - Group [\(Github\)](#) [\(Github\)](#)

Developed a secure mobile application aimed at managing children's medical records and vaccination schedules.

Role: Frontend Develop of Doctor's View of Application and Administrator website

Used Technologies: ReactJS, React Native, NestJS, MongoDB

AI-powered virtual interview coaching [\(Github\)](#)

Developed a full-stack interview coaching platform that evaluates 6+ verbal and non-verbal performance indicators, including filler words, clarity, relevance, face visibility, eye contact and facial engagement. Implemented role-based access, question management, performance scoring, structured feedback, interview history and progress tracking.

Used Technologies: React, TypeScript, FastAPI, MySQL, Whisper, rule-based NLP, and OpenCV

Awards

Brainstorm '24 - Semifinalist (05/2024)

Project: HealthSync

Organized by IEEE Student Branch, University of Moratuwa

Technical Skills

Frontend Development — ReactJS | React Native | HTML | CSS | JavaScript | Flutter

Backend Development — ExpressJS | NestJS | Laravel

Database — MongoDB | MySQL

Programming Languages — C | Java | Python

Technologies and Tools — GitHub | Figma | VS Code

Soft Skills

- Problem Solving
- Decision Making
- Teamwork
- Organization

Interests

- Music
- Outdoor Activities: Cricket, Workout
- Hiking and Camping

Extracurricular Activities

- A member of the IEEE Student Branch, SUSL
- A member of the Society of Computer Sciences (SoCS)
